

Assembly of silicone parts

Slide-on tube for terminations

Application

The slide-on tube facilitates the pulling of the stress cone during the assembly of HV cable termination. For this purpose, the two-piece slide-on tube consists of a cone with a tube extension.

Scope of delivery

- One cone each with a tube extension
- Packaging, cardboard box

Technical Data

- Cone length: 130 mm
- Tube length: 500 mm
- Tube wall thickness: 6 mm
- Outer diameter: 60 - 120 mm
- Material: RCH 1000
